

**EVENET – An eco-evolutionary network of biotic interactions**

---

## **Frontiers in evolutionary biology – 2016**

**KU Leuven Arenberg Doctoral School and EVENET research network**

All seminars at 172-32 - HOGC Hogenheuvcollege - Naamsestraat 69 - 3000 LEUVEN - [plan](#)

### **Friday June 3<sup>rd</sup> 2016: Mini-symposium on *Experimental evolution***

14.00 h: Emanuel Fronhofer (EAWAG, Dübendorf, Switzerland) : “Experimental evolution an eco-evolutionary dynamics in protist microcosms ”

15:00 h : coffee break

15:30 h: Dries Bonte (TEREC, University Gent, B): “Experimental approaches to test the importance of evolution in spatial dynamics”

Coordinator: Dries Bonte

### **Friday 10<sup>th</sup> June 2015: Mini-symposium on *Phenomics***

14:00 h: Bruno Frédérich (Laboratory of Functional and Evolutionary Morphology, Université de Liège, B): “Ecological radiation and convergence”

15:00 h : coffee break

15:30 h: Agnès Dettai (Muséum National d’Histoire Naturelle, Paris, France): “Finding our way through phenotypes”

Coordinator: Filip Volckaert

**EVENET – An eco-evolutionary network of biotic interactions**

## **Frontiers in evolutionary biology – 2016**

**KU Leuven Arenberg Doctoral School and EVENET research network**

All seminars at 172-32 - HOGC Hogenheuvcollege - Naamsestraat 69 - 3000 LEUVEN - [plan](#)

### **Wednesday 15<sup>th</sup> June 2016: Mini-symposium on *Eco-evolutionary dynamics***

14:00 h: Andrew Hendry (McGill University, Montréal, Canada): “Eco-evolutionary dynamics in Galapagos”

15: 00 h: Nelson Hairston (Cornell University, Ithaca, USA): “Cryptic dynamics of the genomic kind”

16:00 h : coffee break

16:30 h : Patrick Nosil (University of Sheffield, Sheffield, UK): TBA

Coordinator: Luc De Meester

### **Friday 17<sup>th</sup> June 2016: Mini-symposium on *Pleistocene evolution***

14:00 h: Vincent Merckx (Naturalis, Leiden, NL): “Evolution of endemism on tropical mountains”

15:00 h : coffee break

15:30 h Steven Janssens (Botanical Garden Meise, B) “Evolutionary dynamics and biogeography of the banana”

Coordinator: Olivier Honnay
